## RHINOZ Stucco Flex

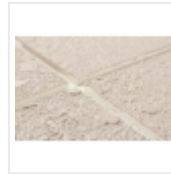

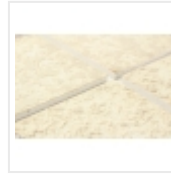

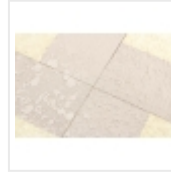

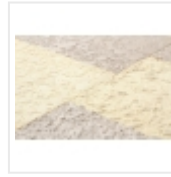

Commercially Available Large Volume

Blue Label Co., Ltd. 

MC 1024708

### POLYMERS

100% acrylic based decorative textured coating. It is highly flexible which prevents cracking and is easily applied using hopper gun, trowel, or paint roller. It contains active biocides to resist growth of mold and mildew to ensure durability and provide weather resistant properties. It can be used over a variety of common substrate materials, both new and old surfaces such as concrete, fiber cement, or gypsum board and is suitable for interior or exterior applications. The color of the coating can be customized as well as the pattern which is customized by adjusting the nozzle of the hopper gun during application. It is also possible to further modify the application by creating a natural or flat edge using a PVC roller to flatten the surface. Applications include architectural elements and interior or exterior walls and ceilings.

When contacting the manufacturer, please be sure to reference the material's name, and not the MC Number.

### PROCESSING + APPLICATIONS

#### PROCESSING

---

Additive Manufacturing	No
Blow Molding	No
Casting	No
Cold Pressing/Deep Drawing	No
Die Cutting	No
Extrusion	No
Injection Molding	No
Lamination	No
Metal Working Tools	No
Printing	No
Rotomolding	No
Stitching	No
Thermoforming/Compression Molding	No
Welding	No
Wood Working Tools	No

#### Properties

#### PERFORMANCE PROPERTIES

---

Acoustics	Sound Absorbing
Chemical Resistance	Medium
Colorfastness	Medium
Fire resistance	N/A
Impact Resistance	Good
Outdoor use	No
Reflectivity	Slightly Reflective
Scratch resistance	Medium
Stain Resistance	Medium
Tear Resistance	Medium
Thermal Conductivity	Low

#### APPLICATIONS

---

Architectural Elements  
Interior Walls  
Residential Interiors

#### CUSTOMIZATION

---

Color  
Texture

#### PHYSICAL PROPERTIES

---

Stiffness	Stiff
Structure	N/A
Surface/Texture	Irregular Texture, Matte
Transparency	Opaque
Surface Hardness	Hard

#### CERTIFICATIONS

---

N/A
